

Why Insulate Your Shed?

Polyair can reflect up to 95% of the sun's radiant heat

Polyair provides a clean, low maintenance, internal finish

Polyair can help protect valuables inside a shed from the sun's radiant heat – cars, boats, motorbikes, machinery, furniture, equipment

Polyair is BCA compliant and rated for use in BAL bush fire regions

Polyair can be used in shed walls to help reduce radiant heat gain

Polyair improves the comfort of a shed so it can be used for activities – gym, workshop, man cave, hobby room, games room
